RECENT PUBLICATIONS AND REPORTS

Compiled by:

Michael J. Moratto

The *Journal* will occasionally publish an annotated list of recent titles. Readers are invited to submit complete bibliographical information on new titles, together with a one- or two-sentence annotation for each, to a Reviews Editor. The *Journal* will accept for listing the titles of books, monographs, Master's theses, Ph.D. dissertations, *substantive* and *well-written* grant and contract reports, and other works that contribute significantly to California and Great Basin anthropology. For unpublished reports, identify the repository from which a copy of the report can be obtained. Such a repository is a responsible state or federal agency or the officially designated data center, such as an information center of the California Archaeological Inventory.

The following are recent titles.
