Author Biographies, California Policy Options 2008

Helmut K. Anheier is professor of public policy and social welfare at the UCLA School of Public Affairs where he directs the Center for Civil Society and the Center for Globalization and Policy Research.

Michael J. Bazdarich is currently a Product Specialist with Western Asset Management in Pasadena, California. At the time Christopher Thornberg and he performed their work on water transfers, he was a Senior Economist with the Anderson Forecast at UCLA and also ran his own consulting firm, MB Economics. Previous work on water market and agricultural issues included research projects for UC Riverside, U.S. Filter Corporation, and the U.S. Bureau of Reclamation (via Tetrattech Corporation).

Eve Garrow is a doctoral student in the Department of Social Welfare at UCLA. Her research focuses on nonprofit human service organizations, the policies that affect them, the resources they depend on, and the ways these factors interrelate to shape the delivery of services to vulnerable populations.

Jocelyn Guihama is manager of the Center for Civil Society. She received her Master of Public Policy (MPP) degree from the UCLA School of Public Affairs in 2003, with a concentration on the leadership and management of nonprofit and community-based organizations.

Marcus Lam is a doctoral student in the UCLA Department of Social Welfare and a research associate with the UCLA Center for Civil Society. He received his Master of Public Policy (MPP) degree in 2002 from the UCLA School of Public Affairs. His research interests include the Los Angeles nonprofit sector with a specific focus on organizational factors involved with HIV testing.

John H.M. Laslett is a UCLA emeritus professor of history who has written widely on American exceptionalism, Anglo-American coal mining communities, and the history of socialism. His latest book is titled, *Colliers Across the Sea: A Comparative Study of Class Formation in Scotland and the American Midwest, 1830-1924* (Urbana, 2000).

Daniel J.B. Mitchell is Ho-su Wu Professor at the UCLA Anderson Graduate School of Management and Distinguished Professor of Public Policy at the UCLA School of Public Affairs. His research and publications involve labor markets, labor relations, California fiscal affairs, and other topics. Mitchell is co-editor of the journal *Industrial Relations*, is a past president of the North American Economics and Finance Association, and is the author of the book *Pensions, Politics, and the Elderly* (M.E. Sharpe, 2000).

William Parent is Associate Dean for Advancement and Director of the Policy Forum at the UCLA School of Public Affairs. Before coming to UCLA, he was at Harvard University's John F. Kennedy School of Government where he was Executive Director of the Innovations in American Government Program.

Steven Raphael is professor of public policy at UC Berkeley. His work focuses on immigration, poverty, racial segregation and inequality, and crime and imprisonment. He is currently editing a forthcoming book on the benefits and costs of the recent U.S. prison boom.

Michael A. Stoll is professor of public policy at the UCLA School of Public Affairs. His latest edited book (with Shawn Bushway and David Weiman) is titled, *Barriers to Reentry: The Labor Market for Released Prisoners in Post-Industrial America*, and published by the Russell Sage Foundation. He is now chair of the Department of Public Policy and Vice President of the Association of Public Policy and Management.

Christopher Thornberg is Principal and Founder of Beacon Economics, a consulting firm that specializes in regional economic forecasting, market analyses and litigation services. Prior to starting his firm he was Senior Economist with the UCLA Anderson Forecast for over six years, where he authored the Anderson Forecast for California, Los Angeles, and the East Bay regions along with performing a variety of regional and market outlooks for a variety of industries and economies across the Western United States. He has been involved in a number of special studies measuring the impact of important events on the economy, including the NAFTA treaty, the California power crisis, the September 11 terrorist attacks, savings behavior in the U.S., and port security.
