

Pre-submission Agreement

Technology Innovations in Statistics Education

The corresponding author must complete and sign a copy of this form and submit to the Editor prior to review. If accepted for publication, all authors must submit a publication agreement before the paper will be published. Conflicts or apparent conflicts of interest do not disqualify papers from publication nor affect decisions made by the referees. Acknowledged conflicts will be known to the editors but blinded for the referees. Please note that this document is two pages long.

Title of paper:

Name of corresponding author:

Please check all that apply.

- To the best of my knowledge, all authors listed on this paper have participated materially in the research and work presented in this paper and we give our approval of this work.
- To the best of my knowledge, all parties who have participated materially in the research and work presented in this paper are listed as co-authors. If this box is not checked, attach a statement giving the names of any individuals who have participated materially in the research and work and the reasons that they are not listed as co-authors.
- To the best of my knowledge, the work reported in this paper has not appeared previously in a refereed or copyrighted publication nor is it currently under review with another journal. Also, it will not be submitted elsewhere before notifying the editor that the paper is being withdrawn.
- As the corresponding author for this paper, I will keep my co-authors informed about communications with the editorial office concerning review and publications matters.
- I certify that, to the best of my knowledge, all external sources of financial and/or material support for the research in this paper (i.e., sources other than from the employer(s) of the author(s)) have been clearly stated in the acknowledgements section of the paper.

Please check which of the following categories you would like your paper to be published under. Check only one. See Aims and Scopes for descriptions of categories.

- Research Paper (empirical or conceptual/theoretical articles)

Position Paper (discussion of timely issues)

Technology Innovations (case studies or discussions of new technologies)

Your name (print or type)

Signature

You may submit in several ways.
